

JAYADEEP GOWDA K B

Robotics - AI & Software Systems Engineer

☎ +91 8310491224 | ✉ jayadeepgowda24@gmail.com | 🔗 LinkedIn | 🐙 GitHub | 🌐 Portfolio

EDUCATION

Bangalore Institute of Technology

B.E. Robotics & Artificial Intelligence | CGPA: 8.85/10

Bangalore, India

2023 – 2027

TECHNICAL SKILLS

- **Languages:** Python, C++, SQL
- **Data Analytics & Tools:** Pandas, NumPy, Tableau, Power BI, Advanced Feature Engineering, Matplotlib, Seaborn
- **Software Systems & Methodologies:** SDLC, Agile/Scrum, Git, FastAPI, REST APIs, Linux/ARM Dev
- **Deep Learning & AI:** PyTorch, TensorFlow, OpenVINO, ONNX, Transformers, CNN-LSTM Systems, Multimodal Pipelines
- **Robotics Engineering:** ROS2, FSM Control, Kinematics, Webots, Gazebo, ABB Robot Studio, 6-DOF ARM, Multi-DOF Hardware Deployment

EXPERIENCE

Indian Institute of Science (IISc)

Research Intern – Dept. of Computational & Data Sciences

Bangalore, India

Mar 2026 – Jun 2026

- Developed end-to-end analytical data pipelines to ingest and process high-frequency material sensor data from advanced MXene piezoresistive wristbands, handling disparate sampling rates (5.68–26.32 Hz).
- Benchmarked 17 diagnostic models (14 classical ML + CNN, BiLSTM, CNN-LSTM hybrid architectures) using 5-fold stratified cross-validation and 21 mathematical time/frequency domain features.
- Collaborated directly with Postdocs, PhD candidates, and international research scientists from the AUG Institute (Poland) to translate raw sensor telemetry into structured, publication-grade analytical assets.

Sirena AI Systems

R&D Engineer – Automation & Edge AI

Bangalore, India

Jan 2026 – Feb 2026

- Spearheaded the full-lifecycle engineering of a production-grade desktop robot, executing system requirements from virtual physics simulations to multi-DOF physical embedded hardware deployment.
- Applied and evaluated complex locomotive systems across Humanoid, Quadruped, and Hexapod robotic structures using PyBullet, developing custom inverse kinematics solvers and 12-state FSM gait controllers.
- Integrated an optimized, real-time perception pipeline combining YOLOv8, Whisper speech processing, and on-device Phi-2 LLM execution, reducing inter-process communication latency to under 50ms via ZeroMQ pub-sub on ARM targets.

Frillory Design House

AI Automation Engineer

Bangalore, India

Jun 2025 – Aug 2025

- Architected an agentic software automation toolchain leveraging LLM prompt orchestration and generative asset pipelines; automated 200+ distinct enterprise assets, reducing manual overhead by 25%.

PROJECTS

MEMO (Neural-OS) – Multimodal Autonomous Desktop Robot Agent

GitHub

- Designed and manufactured an interactive desktop robot assistant driven by an onboard Raspberry Pi 5 executing synchronized compute pipelines for vision (YOLOv8, FaceNet), speech (Whisper), and localized language logic.
- Optimized low-level concurrent text-to-speech execution and compressed 4-bit quantized 2.7B parameter models to perform at 10–14 tokens/sec, reducing end-to-end latency to 600ms via targeted script optimization.
- Presented technical implementation details and real-time interaction capabilities at national expo.

Awarded 3rd Place for Best Poster Presentation.

YOLOmart – Smart Retail Infrastructure & Tooling

GitHub

- Built and deployed a compressed data-driven software backend using extreme optimization workflows (INT8 Quantization), minimizing model payload requirements from 100MB down to 3.5MB.
- Engineered a robust analytical camera-to-dashboard pipeline operating reliably at 20 FPS with 92% mAP under dynamic environments; built interactive data flows for mobile dashboards.

Awarded 2nd Place, GlitchVerse 2k25.

LEADERSHIP & RECOGNITION

- **Competitions:** 2nd Place out of nationwide teams at GlitchVerse 2k25 Project Expo | 3rd Place for Best Poster Presentation (On Memo) | National Finalist at Anveshana 2025 Engineering Competition.
- **Leadership:** Joint Secretary of ROBO CELL Club; coordinated heads, managed cross-functional workflows served as Core Organizer for Ideathon 2025 hosting 600+ participants.
